

EXECUTIVE CONTENT EXPERIENCE LEADER: TECHNICAL SKILLING

Driving enterprise skilling impact across Microsoft AI and Fabric, from internal content systems and workflows to external community events.

EVENTS & SKILLING

Build and scale 10+ technical skilling programs across Fabric/AI walkthroughs, VibeHub, Promptcraft, Azure Data University/Reactor, and Red Bull Basement.

SCALABLE OPERATING MODEL

Run design operations across 3 product areas and 25+ stakeholders through shared infrastructure, recurring reviews, and executive alignment.

LEARNING & UPSKILLING

VibeHub: Organically grew 5,000+ global community to upskill, share, & elevate AI product design practice.

Promptcraft: Microsoft Design Week workshop & Viva Learning package on prompting patterns for content designers.

Azure Data University + Reactor: Technical education support as TA & live-session moderator.

Red Bull Basement: Student innovation event with panel prep, judging, & mentoring.

EXPERTISE

Content systems: Strategy, UX writing, terminology, governance, onboarding, & tours.

Skilling/event design: Workshops, speaker briefs, reusable playbooks, & contributor support.

Technical translation: Fabric, ADF, Power BI, Azure AI, agent workflows, MCP, & prompt systems.

Operating model: Stakeholder reviews, quality gates, research signals, telemetry, & alignment rhythms.

EDUCATION

Tufts University

M.S., Computer Science | May 2025–Exp. May 2028
Software systems & machine learning

Carnegie Mellon University

M.S., Data Science | Dec. 2023–May 2025
AI data visualization, workflows, probability, & statistics

Emerson College

M.A., Writing & Publishing
Digital Innovation emphasis

Lafayette College

B.A., Psychology & English
Thesis: Virtual reality communities, equity, & social impact

AWARDS & CERTIFICATIONS

- 2025 Executive Challenge Winner
Disability Innovation, ASL Sign-to-Text
- 2025 Regional Challenge Winner
Agentic Hardware,
Healthcare Device for Multiple Sclerosis
- 2024 Executive Challenge Winner
Accessible Design & Innovation,
AI + ASL data collection

- Microsoft Azure Data University,
Cloud Computing
- Microsoft Azure AI Foundations,
Certified AI Practitioner
- GitHub Foundations, Practitioner Certification
- Scaled Agile, Inc., Certified SAFe 6 Practitioner

END-TO-END CONTENT EXPERIENCE

Lead content strategy across Microsoft Fabric Data Engineering, shaping narratives, onboarding, terminology, and workflow language for contributor readiness.

CONTRIBUTOR & SPEAKER ENABLEMENT

Create workshop methods, speaker briefs, and reusable templates that turn complex technical topics into audience-ready learning experiences.

EXPERIENCE

Principal Content Designer, Microsoft
Data Engineering and Agentic AI | Mar. 2026–Present

- Lead content strategy, information architecture, and naming across three Fabric data-engineering areas for Lakehouse, Monitoring & Settings, and Agentic AI, turning complex concepts into onboarding, in-product guidance, and decision-ready narratives (~262K MAU workload).
- Built reusable content systems and an AI-native content workflow with custom agents, MCP integrations, and prompt frameworks, strengthening cross-team consistency and contributor readiness.
- Hold the content voice in cross-org strategy, influencing 25+ partners and CVP/EVP decisions on roadmap, naming, and experience.
- Ground content in customer sentiment, using workload NPS (12.2, ~1.3K responses) to target the highest-friction moments.

Principal Content Designer, Microsoft
AI-Augmented Developer Tools and Copilot | Jan. 2026–Mar. 2026

- Set content strategy for Power BI Copilot, defining voice, trust, and in-product guidance for an agentic AI experience serving ~487K MAU in a focused 3-month engagement.
- Defined voice and trust patterns for AI-generated guidance, shaping how Copilot communicates with developers.
- Designed onboarding and first-run content to reduce early-session friction and strengthen the new-user experience.

Principal Content Designer, Microsoft
Data Integration and AI Experiences | Apr. 2022–Jan. 2026

- Owned content strategy and UX writing for Fabric Data Factory, Azure Data Factory, and AI data experiences, a workload that grew ~50% to ~209K MAU by Jan 2026.
- Built the scalable content systems, including narratives, onboarding, error language, and terminology governance, that became the team's reference model.
- Directed 15+ terminology and naming programs and operationalized AI-assisted content workflows (custom agents, MCP, prompt frameworks).

UX Content Strategy Manager and Senior Content Designer, CVS Health
Retail, Health and Insurance | Aug. 2019–Mar. 2022

- Led UX writing and content strategy across CVS Retail, OTC Health Solutions, and Aetna, aligning three business units on one CX standard.
- Built journey maps, user flows, content audits, and A/B frameworks that reduced friction and lifted CX outcomes.
- Owned content strategy for buy-online/store-pickup and national delivery, each supporting roughly \$1B in revenue.

Lead Content Strategist and Content Manager, John Hancock
Life Insurance and Financial Services | Jun. 2017–Aug. 2019

- Launched U.S. life-insurance content marketing from scratch, establishing strategy, process, and governance.
- Led 5 writers and consulting partners, aligning brand, voice, and compliance across regulated experiences.
- Used performance data and research to lift content effectiveness and quality.

UX Writer and Content Strategist, SundaySky
Voice Interface and Personalization | 2016-2017

- Designed voice and personalized content for AT&T, American Express, Bank of America, and Verizon at Fortune-100 scale.

Founder and Principal Writer, Story to System Studio
Content Strategy Consulting | 2006-2022

- Founded and led a content strategy practice improving clarity, trust, and conversion for tech, education, healthcare, and retail clients.
